## PSALM LECTURE & AGM 2019

# PLAYING FAIR ACROSS THE GENERATIONS

**Ann Morisy,**

**Freelance Community Theologian and PSALM Associate**

Many of us belong to the generation that Harold Macmillan suggested had 'never had it so good'. A combination of factors has meant that future generations are unlikely to be quite so blest as their parents' and grandparents' generations. Our society, and we as Christians, face the challenge of how to take account of the needs of younger and future generations so that we can head off the possibility of resentment and blame infecting the relationships between generations.

Ann is well known to PSALM. She is a freelance community theologian, a well regarded key-note speaker as well as author of a number of best selling books on community ministry and mission
